

SimplyVoxa

AI VOICE AGENT FOR CLINICS

Calls | Appointments | WhatsApp follow-ups | Patient records

SIMPLYVOXA FOR CLINICS

AI VOICE RECEPTIONIST FOR CLINICS

Meet Neha - your clinic's 24/7 AI receptionist

She answers every call, books appointments, messages patients on WhatsApp and maintains patient records - completely on her own.

No new hardware. Your clinic number stays the same.

24/7
always answering

11
Indian languages

100%
calls captured

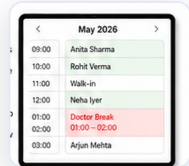

1
complete system

1 Intelligent Voice Agent

- Answers every call round the clock - nights, Sundays, holidays
- Speaks 11 Indian languages, switching mid-call automatically
- Natural human-like voice with instant responses
- Recognises returning patients by name and history
- Handles family members sharing one mobile number
- Alerts the doctor instantly in a genuine emergency

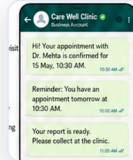

2 Smart Appointments

- Books, reschedules and cancels - never double-books
- Front-desk walk-ins and doctor's blocked hours sync live
- Automatic no-show flags on missed visits
- Dropped calls get an instant 'we missed you' WhatsApp
- Fee capture per visit: Visit → Paid → Done → Review

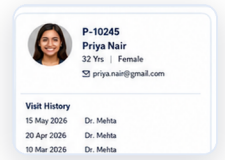

3 WhatsApp Automation

- Instant booking confirmation + reminder before the visit
- Your crown / report is ready alerts to patients
- Google-review request after every completed visit
- Collects patient details on WhatsApp - and reads the replies
- Doctor receives the day's appointment list every morning

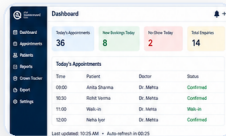

4 Patient Records (KYP)

- Every caller becomes a patient record with a unique ID
- Contact, DOB & age, gender, medical notes, visit history
- Auto-built from calls, walk-ins and WhatsApp replies
- Incomplete profiles flagged for the front desk to complete

5 Clinic Dashboard & Excel

- Secure login - each clinic sees only its own data
- Live appointment board with today's visits highlighted
- Reports & crown tracker with one-click patient alerts
- One-click Excel export - appointments, patients, reports
- New-booking bell sound and 5-minute auto-refresh

6 Safe & Reliable

- Clinic-approved answers only - never diagnoses or prescribes
- Never asks for OTP, PIN or card details
- Hosted on Google Cloud in India; data isolated per clinic
- Ready to connect with your existing CRM software

How it works

- 1 Patient calls your clinic number
- 2 Neha answers, helps and books instantly
- 3 WhatsApp confirmations, reminders & alerts
- 4 You track it all on your dashboard

One system. Nothing else to buy.

Set up in days | No new hardware | Your clinic number stays the same
